

## Advisory Committees

Advisory committees play an important role in providing guidance and direction to the administration, faculty, and staff at the Tennessee College of Applied Technology Elizabethton.

The General Advisory Committee provides an overall direction and recommendation to the administration, faculty, and staff for the effective operation of the college. Committee members review and make recommendations on needed changes to vision and mission statements.

Program Advisory Committees make recommendations on needed changes to curriculum to better meet the needs of employers in the region. Suggestions from committee members allow faculty to stay current in the latest equipment, methods, trends, and technologies in their respective occupational areas. Committee members also provide information on employment opportunities for TCAT Elizabethton graduates.

## General Advisory Committee

President: David Hicks, 423-342-0070

Advisory Committee Members:

Faith Madison - Great Clips  
Charles Skarsaune - Snap-On Tools
