Examples include a building fire, hazardous material spill affecting a large area, tornado or other severe weather event, or an active shooter on campus.

The TCAT Elizabethton will issue a timely warning notice to the campus community in a timely manner of specific crimes that occurred on campus. The purpose of a timely warning notice is to offer safety tips and information to aid in the prevention of similar crimes. A timely warning notice will not be issued for the circumstances that led to issuance of an emergency notification.

Decisions to Notify Certain Campuses

The TCAT Elizabethton will notify students, employees, and staff based on the assessed need. In the case of large segments of the TCAT Elizabethton population being affected, notifications may be made to all campuses. Notifications may be made to individual campuses when conditions causing the notice are localized; however, a continuing assessment of situations may warrant additional notifications to other segments of the community.

Content of Notifications

The President or the President's senior staff designee will determine what information will be contained in notifications; depending on the segments being affected, notifications may vary between targets.

Means of Communication

Notifications will be disseminated using methods likely to reach members of the campus community. Those include electronic communication (fire alarm, announcement, bullhorn, siren, telephone, intercom, in-person announcement, email, text, cell phone),

Evacuating The Building

1. When an evacuation of the building is necessary, a fire alarm or announcement will notify you. (Bullhorn, siren, telephone, intercom or in-person announcement) Assume that the alarm is genuine. Always evacuate.
2. Stay calm. Do not rush, or panic. Keep in mind that visitors and students look to you for guidance.
3. Faculty: Tell your students to stay together outside the building until you take roll.
4. Use the nearest Fire Exit. If you are in immediate danger, use whatever exit is nearest.
5. Help student, faculty, staff and visitors with a physical disability exit the building.
6. Move far away from the building. Stay out of Fire Lanes.
7. Faculty & Supervisors: Take roll and try to verify if anyone is missing.

This information is located in Faculty and Staff handbook for quick reference on page 31, public address systems, or via alarms based on the timeliness of need for the message being communicated.

Timeliness

The TCAT will inform the community of a confirmed significant emergency or dangerous situation in a timely manner (as soon as pertinent information is available). The institution will take into consideration the safety of the community, will determine the content of any notifications, and will initiate the notification system. The institution may withhold a notification in situations where the professional judgment of responsible authorities indicates that issuing a notification will compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

Emergency Response and Evacuation Procedures [34 CFR §668.46(b)(13)]

The Health Care and Safety of Employees, Students, and Guests Plan of the Tennessee College of Applied Technology Elizabethton was developed and is maintained by the Student Services Coordinator, Vice Presidents, and President. Its goal is to ensure that procedures and policies are developed to protect the health and safety of employees, students, and guests. This committee periodically reviews the established policies and procedures of the plan, determining its effectiveness, and when necessary, develops new policies and procedures. The plan also contains accident, incident, medical questionnaire, and a first-aid supply order form for employees use.

This program is reviewed with students periodically by instructors during classroom orientation and is made readily available for employees and students' use. Faculty, Staff, and Students are encouraged to provide input for plan improvement. Safety is the top priority at TCAT Elizabethton. Our goal is to be proactive in training to eliminate all accidents at the school. Safety instruction is provided for all TCAT Elizabethton instructors and students. All visitors are expected to follow safety precautions put in place by the school to prevent any accidents.

The Guide is also available in the Faculty and Staff handbook.

In the event of a serious incident that poses an immediate threat to members of the TCAT Elizabethton community, the TCAT Elizabethton has various systems in place for communicating information quickly. Some or all of these methods of communication may be activated in the event of an immediate threat to the campus community. These methods of communication include The methods of communication include the Rave notification system, network emails, emergency text messages that can be sent to a phone or PDA, audible tones/alerts from inside building fire alarm systems, and audio announcement made via automated phone calls.

Internal Emergency Procedures

TCATE is committed to notifying persons regarding significant types of threatening events or situations that may occur on or near its campus properties. TCATE defines emergency notification as the attempt to properly and to immediately notify affected persons of events, incidents, or situations that potentially threaten or endanger lives or significant property, and in such cases that the information contained within the notification may substantially reduce the likelihood of individuals or groups being victimized. "Properly" is defined as the reasonable issuance of information given the capabilities of the Institution and its notification systems.

“Immediately” is defined as the release of information as soon as verifiable or credible information can be reasonably received, understood, formatted and delivered via useable mass notification systems. This definition takes into account the fact that everything cannot happen at once: information must be received by decision-makers, a determination must be made that the information should be released, the material must be put together in an understandable manner, and the information must be released and received by viable stakeholders. “Affected persons” includes members of the campus community (i.e., TCATE employees and students) and visitors while on TCATE campus. For this designation, members of the TCATE campus community include any currently employed TCATE employees and any currently enrolled TCATE students. It is the intent of TCATE to immediately notify all members of its community of incidents and situations on or near TCATE campus property that have the potential to immediately threaten or endanger lives or that threaten severe bodily injury or extensive loss of property. These incidents and situations will typically be characterized as: on-going in nature in that they continue to pose a real or likely threat; they may be mitigated by the quick release of information to the campus community; or the release of information regarding the possible threats in a more immediate fashion may significantly reduce the chances of individuals or groups becoming victims. It is the intent of TCATE to make timely warnings to all members of its community of incidents and situations that pose a potential on-going threat or risk in which the threat or risk is not likely to require immediate notification in order to greatly reduce the victimization risk to individuals or groups.

Notification for those previously described incidents that pose a grave and immediate threat to people and/or property will be made using any number of notification systems currently employed by TCATE. Currently, the Rave notification system utilized by TCATE includes cell phone, text message, e-mail, and web page.

The TCAT Rave communication includes lock downs, fire alarm, inclement weather, school changes and other campus security matters.

The decision to immediately notify the TCATE campus community will be made by the TCATE Administration on an individual case basis. The TCATE Administration may also determine that a particular building or structure on campus, an area of the TCATE campus, or the entire TCATE campus, should be immediately evacuated in order to create or maintain a safe situation for students and others in these areas. In these instances, the aforementioned authority may require evacuated persons to temporarily refrain from remaining or entering specified areas of campus or for safety purposes. In those cases, TCATE employees, students, and visitors may be informed as to how to leave the TCATE campus. They may also be informed as to where they should assemble or disperse.

In making the decision about whether or not to activate the eAlert emergency notification system or to order an evacuation of TCATE campus and/or property, the TCATE Administration will consider:

- Does the event pose a significant or likely threat to the general campus community?
- Is the threat from the event likely to still exist?

- Is there evidence that the threat has subsided or moved away thereby no longer posing a danger or a hazard?
 - Has there been a significant amount of time transpired from the time of the incident to the present that would reasonably lead one to presume that the threat or the danger is no longer in the area?
 - Will notification about the incident provide persons with knowledge that, if utilized, would likely reduce or reasonably eliminate the possibility that they would be victimized by the threat?
- Each situation requires that decisions regarding the public's safety be measured and determined on an individual case basis.

Emergency Response and Evacuation

The methods of communication include the Rave notification system, network emails, emergency text messages that can be sent to a phone or PDA, audible tones/alerts from inside building fire alarm systems, and audio announcements made via automated phone calls.

Immediate Notification

TCATE Administration typically receives information from individuals and various offices/departments on campus regarding suspicious activity and criminal incidents. If TCATE Administration confirms that there is an emergency or dangerous situation that poses an immediate threat to the health or safety of some or all members of the TCATE community, TCATE Administration will determine the content of an emergency notification message and will use some or all of the systems described above to communicate the threat to the TCATE community or to the appropriate segment of the community, if the threat is limited to a particular building or segment of the population.

Issuing Immediate Notification

TCATE Administration will, without delay and taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the judgment of the first responders (including, but not limited to: Elizabethton Police Department and/or the Carter County Rescue Squad), compromise the efforts to assist a victim, to conduct an adequate and competent criminal investigation or to contain, respond to, or otherwise mitigate the emergency.

TCATE will, taking into account the safety of the community, determine the content of the notification and initiate the notification system, unless issuing a notification will, in the professional judgment of responsible authorities, compromise efforts to assist a victim or to contain, respond to, or otherwise mitigate the emergency.

The TCATE conducts emergency preparedness drills to test the emergency response and evacuation procedures of each facility at all campuses on an annual basis. The results of each of these drills are recorded documenting the date, time, and whether it was an announced or unannounced drill.

The confidentiality of persons reporting criminal activity can be requested and will be respected when possible but cannot be assured, as police reports for closed cases are generally available under the Tennessee Public Records Act. The annual crime statistics do not include personally identifiable information.

During business hours, the college will be open to students, parents, employees, contractors, guests and invites. During non-business hours, access to all college facilities is by key or access card, if issued. Some facilities may have individual hours, which may vary at different times of the year. In these cases, the facilities will be secured according to schedules developed by the person responsible for the facility. Emergencies may necessitate changes or alterations to any posted schedules.

The TCATE examines security issues such as landscaping, locks, alarms, lighting, and communications. Any maintenance needs are reported to Jeremy Bell, Director of Facilities and Information Technology. Any identified security concern will be evaluated by Crystal Fink, Vice-President of Finance, Facilities, and Instruction.

Policy Statement Addressing Substance Abuse Education [34 CFR §668.46(b)(10)]

A. General

Drug and Alcohol Awareness

The TCAT Elizabethton is committed to raising the awareness of students and employees of the health risks associated with the use of illicit drugs and the abuse of alcohol.

A synopsis of those health risks is presented below.

B. Alcohol

Alcoholism is a complex, progressive disease that interferes with health, social and economic functioning. Untreated alcoholism results in physical incapacity, permanent mental damage and/or premature death. Alcohol is involved in one-third of all suicides, one-half of all traffic accidents and one-fourth of all other accidents and is involved in over 50% of all arrests. Alcohol is the third leading cause of birth defects involving mental retardation. Use during pregnancy may cause spontaneous abortion, various birth defects or fetal alcohol syndrome. Drinking is implicated in cancer, heart disease, gastrointestinal disease and other illnesses. Alcoholism has been estimated to reduce life expectancy by twelve years. Alcohol Beverage can damage all body organs, leading to liver, heart and digestive problems, circulatory system interference, change in personality, reproductive problems and central nervous system disorder such as poor vision, loss of coordination, memory loss, loss of sensation, mental and physical disturbances and permanent brain damage. The physical and psychological changes that occur as a result of addiction to alcohol can pave the way for addiction to pharmacologically similar drugs.

C. Illicit Drugs

The use of illicit drugs results in many of the health risks that are involved with alcohol use. Illicit drug use increases the risk of mental deterioration, death from overdose, physical and mental dependence or addiction, hepatitis and skin infections from needle use, psychotic reactions, inducement to take stronger drugs, brain damage, danger of flashback phenomenon, hallucinations, unconsciousness, deep depression, distortion of time and space, permanent damage to lungs, brain, kidneys and liver, death from suffocation or choking, anemia, amnesia, AIDS and other infections. If used excessively, the use of alcohol and drugs singly or in certain combinations may cause death.

D. Counseling, Treatment and Rehabilitation Programs

The Student Services Coordinator, David Holder will assist students and/or employees by providing information concerning treatment resources in the surrounding area and assisting individuals in making initial contact with treatment providers. Regular employees may also use the Employee Assistance Program (EAP) by calling 1-855-437-3486 or on the web at <https://Here4TN.com>. Information concerning the EAP is available from Human Resources. TCAT-Elizabethton recognizes that the use of alcohol and drugs can have a negative impact on students and the learning process. In order to inform students of these hazards, there are outreach programs that are available online at: <http://www.drugstrategies.org> and <http://www.centerstone.org>. TCAT-Elizabethton does not currently provide drug/alcohol counseling, treatment, or rehabilitation programs for students. Referral to community treatment facilities may be made in appropriate cases.

The resources listed below are not exhaustive or limited to victims who wish to make an official report or participate in an institutional hearing, police investigation or criminal prosecution. However, in cases where a victim wishes to maintain complete confidentiality, the victim should

review carefully the section “Reporting Confidentially” below related to the limits on the College’s ability to maintain confidentiality. Victims can seek information on treatment for injuries, preventative treatment for sexually transmitted diseases, and where and how to get a rape kit or find a Sexual Assault Nurse Examiner (SANE) from the resources listed in this section.

Reporting Confidentially

If a victim chooses to report an incident of sexual misconduct in a confidential manner, the victim can report the incident to the following agency who employs licensed counselors and is required by Tennessee state law to maintain confidentiality of a victim.

Sexual Assault Center, Counseling & Education

101 French Landing Dr., Nashville, TN 37228; (615) 259-9055

24-hour hotline 1-866-811-7473 1725-I Wilma Rudolph Blvd., Clarksville, TN 37040; (931) 241-4143

www.sacenter.org

Counselors and health care providers not affiliated with the institution will generally maintain confidentiality and not share information with the institution unless the Complainant requests the disclosure and signs a consent or waiver form. However, these resources may have reporting obligations under state or federal law. For example, healthcare providers and certain other individuals are required to notify law enforcement when a person seeks treatment for injuries related to a violent crime, including injuries resulting from Sexual Misconduct or abuse of a minor.

Additional information about confidential reporting of sexual assault, sexual harassment, dating violence, domestic violence, and stalking can be found in the Sexual Misconduct Policy attached as Appendix E and available at [<https://tcatelizabethton.edu/file/2016-05/tbr-sexual-misconduct-policy-6030000pdf>].

Role of Title IX Coordinator

A. The College's Title IX Coordinator is responsible for overseeing all Title IX incidents reported to the institution and for implementation of this policy, including but not limited to, identifying and addressing any systemic gender-based harassment, discrimination, and sexual misconduct. The Title IX Coordinator's responsibilities include, but are not limited to, the following:

1. Investigation or oversight of investigations of allegations related to Title IX.
2. Coordination and oversight of educational programs including mandatory training for new students and employees and awareness campaigns for current students and employees.
3. Coordination with local law enforcement on matters related to allegations related to sexual misconduct.
4. Coordination and oversight of training for anyone involved in responding to, investigating, or adjudicating sexual misconduct.

5. Coordination and oversight of training for employees related to their responsibility when they are aware of sexual misconduct.

6. Coordination and oversight of annual training for investigators, decision makers, hearing officers and hearing committee members on the issues related to sexual misconduct and on how to conduct an investigation and hearing process that protects the safety of Complainants and promotes accountability; and

7. Attending appropriate training annually on topics related to responding to or investigating allegations of sexual misconduct.

B. The Title IX Coordinator may designate deputies and investigators (“designees”) to assist in carrying out any of the responsibilities related to implementing this policy.

The Title IX Coordinator shall report at the beginning of each new school year, or any time there is a change in the assignment, to the System Office the name of and contact information for the College’s Title IX Coordinator.

Bystander Intervention and Risk Reduction

Helping prevent sexual harassment is everyone’s responsibility. Bystander intervention is one means of prevention and reducing risks. Bystander intervention essentially means interrupting problematic behavior. Bystanders can help prevent sexual harassment in a safe way by being involved before, during, or after a situation where an individual may make inappropriate jokes or comments, may make threats, or may behave in a way that is harmful to another person. Individuals are encouraged to review bystander tips and strategies published by national resources.

Definitions [34 CFR §668.46(j)]

The TCAT Elizabethton prohibits Sexual Misconduct, which includes rape, fondling, incest, statutory rape, dating violence, domestic violence, and stalking. Those terms are defined in the Sexual Misconduct policy (Appendix E) in accordance with federal Title IX and Clery Act regulations. The crime statistics reported in Appendix A, B, C, D are based on the Clery Act.

Crimes as defined by the Tennessee criminal code differ from the definitions in the Clery Act (and are not used for purposes of Clery Act reporting). Tennessee's criminal code includes the following definitions.

Stalking (T.C.A. § 39-17-315) is a willful course of conduct involving repeated or continuing harassment of another individual that would cause a reasonable person to feel terrorized, frightened, intimidated, threatened, harassed, or molested, and that actually causes the victim to feel terrorized, frightened, intimidated, threatened, harassed, or molested.

- A “Course of conduct” means a pattern of conduct composed of a series of two or more separate, noncontinuous acts evidencing a continuity of purpose, including, but not limited to, acts in which the defendant directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to a person, or interferes with a person's property.
- “Emotional distress” means significant mental suffering or distress that may, but does not necessarily, require medical or other professional treatment or counseling.
- “Harassment” means conduct directed toward a victim that includes, but is not limited to, repeated or continuing unwanted contact that would cause a reasonable person to suffer emotional distress, and that actually causes the victim to suffer emotional distress. Harassment does not include constitutionally protected activity or conduct that serves a legitimate purpose.
- “Unwanted contact” means any contact with another person that is initiated or continued without that person's consent, or in disregard of that person's expressed desire that the contact be avoided or discontinued. Unwanted contact includes, but is not limited to, any of the following: (1) following or appearing within the sight of that person; (2) approaching or confronting that person in a public place or on private property; (3) appearing at that person's workplace or residence; (4) entering onto or remaining on

property owned, leased, or occupied by that person; (5) contacting that person by telephone; (6) sending to that person mail or any electronic communications, including, but not limited to, electronic mail, text messages, or any other type of electronic message sent using the Internet, web sites, or a social media platform; or (7) placing an object on, or delivering an object to, property owned, leased, or occupied by that person.

- “Victim” means an individual who is the target of a willful course of conduct involving repeated or continuing harassment.

Sexual Assault is not specifically defined in the Tennessee Code, but several sexual offenses are defined.

- **Rape** (T.C.A. § 39-13-503) is the unlawful sexual penetration of a victim by the defendant or of the defendant by a victim accompanied by any of the following circumstances: (1) Force or coercion is used to accomplish the act; (2) The sexual penetration is accomplished without the consent of the victim and the defendant knows or has reason to know at the time of the penetration that the victim did not consent; (3) The defendant knows or has reason to know that the victim is mentally defective, mentally incapacitated or physically helpless; or (4) The sexual penetration is accomplished by fraud.
- **Sexual Battery** (T.C.A. § 39-13-505) is unlawful sexual contact with a victim by the defendant or the defendant by a victim accompanied by any of the following circumstances: (1) force or coercion is used to accomplish the act; (2) the sexual contact is accomplished without the consent of the victim and the defendant knows or has reason to know at the time of the contact that the victim did not consent; (3) the defendant knows or has reason to know that the victim is mentally defective, mentally incapacitated or physically helpless; or (4) the sexual contact is accomplished by fraud.
- **Statutory Rape** (T.C.A. § 39-13-506) is the unlawful sexual penetration of a victim by the defendant or of the defendant by the victim when: (1) the victim is at least thirteen but less than fifteen years of age and the defendant is at least four years but less than ten years older than the victim; or (2) the victim is at least fifteen but less than eighteen years of age and the defendant is more than five but less than ten years older than the victim.
- **Incest** (T.C.A. § 39-15-302) is sexual penetration as defined in T.C.A. § 39-13-501, with a person, knowing the person to be, without regard to legitimacy: (1) the person's natural parent, child, grandparent, grandchild, uncle, aunt, nephew, niece, stepparent, stepchild, adoptive parent, adoptive child; or (2) the person's brother or sister of the whole or half-blood or by adoption.
- **Other sexual offenses** are included in T.C.A. § 39-13-501 through § 39-13-511.

Domestic Violence and **Dating Violence** are not defined in the Tennessee criminal code, but the **Domestic Assault** and domestic abuse victim (T.C.A. § 39-13-111) are defined as any person who falls within the following categories: (1) adults or minors who are current or former spouses; (2) adults or minors who live together or who have lived together; (3) adults or minors who are dating or who have dated or who have or had a sexual relationship, but does not include fraternization between two individuals in a business or social context; (4) adults or minors related by blood or adoption; (5) adults or minors who are related or were formerly related by marriage; or (6) adult or minor children of a person in a relationship that is described in subdivisions (1)-(5).

- For purposes of these definitions, as defined in T.C.A. § 39-13-101 a person commits **Assault** who: (1) intentionally, knowingly or recklessly causes bodily injury to another; (2) intentionally or knowingly causes another to reasonably fear imminent bodily injury; or (3) intentionally or knowingly causes physical contact with another and a reasonable person would regard the contact as extremely offensive or provocative.
- **Abuse** (T.C.A. § 36-3-601) means inflicting, or attempting to inflict, physical injury on an adult or minor by other than accidental means, placing an adult or minor in fear of physical harm, physical restraint, malicious damage to the personal property of the abused party, including inflicting, or attempting to inflict, physical injury on any animal owned, possessed, leased, kept, or held by an adult or minor, or placing an adult or minor in fear of physical harm to any animal owned, possessed, leased, kept, or held by the adult or minor.
- **Adult** means any person eighteen (18) years of age or older, or who is otherwise emancipated.

Consent is not specifically defined in the Tennessee criminal code, but with respect to most criminal offenses relating to sexual activity, sexual activity is criminal if: (1) the activity was accomplished without the consent of the victim and the defendant knows or has reason to know at the time of the activity that the victim did not consent; (2) force or coercion is used to accomplish the activity; (3) the defendant knows or has reason to know that the victim is mentally defective, mentally incapacitated, or physically helpless; or (4) the sexual activity is accomplished by fraud.

- “Coercion” (T.C.A. § § 39-13-501(1)) means a threat of kidnapping, extortion, force, or violence to be performed immediately or in the future.
- “Mentally defective” (T.C.A. § § 39-13-501(3)) means that a person suffers from a mental disease or defect which renders that person temporarily or permanently incapable of appraising the nature of the person's conduct.
- “Mentally incapacitated” (T.C.A. § 39-13-501(4)) means that a person is rendered temporarily incapable of appraising or controlling the person's conduct due to the influence of a narcotic, anesthetic or other substance administered to that person without

the person's consent, or due to any other act committed upon that person without the person's consent.

- “Physically helpless” (T.C.A. § 39-13-501(5)) means that a person is unconscious, asleep or for any other reason physically or verbally unable to communicate unwillingness to do an act.
- Consent is not relevant to sexual activity with a person under the age of eighteen (18) years of age because under Tennessee law a minor is not capable of consenting to sexual activity. Tennessee law, however, provides a close-in-age exception that allows minors who are at least thirteen (13) and less than eighteen (18) to give consent to sexual acts with another person who is less than four (4) years older than the minor.

Sex Offender Registration [34 CFR §668.46(b)(12)] (All Campuses)

In accordance with the *Campus Sex Crimes Prevention Act of 2000*, which amends the *Jacob Wetterling Crimes Against Children and Sexually Violent Offender Registration Act*, the *Jeanne Clery Act* and the *Family Educational Rights and Privacy Act of 1974*, the TCATE is providing a link to the Tennessee State Sex Offender Registry. This act requires institutions of higher education to issue a statement advising the campus community where law enforcement information provided by a State concerning registered sex offenders may be obtained. It also requires sex offenders already required to register in a state to provide notice of each institution of higher education in that state at which the person is employed, carries a vocation, or is a student. Members of the campus community may obtain the most recent information received from the Tennessee Bureau of Investigation (TBI) concerning sex offenders employed, enrolled, or volunteering at this institution from the State of Tennessee’s website listing of sex offenders located at <https://sor.tbi.tn.gov/home>.

Unlawful use of the information for purposes of intimidating or harassing another is prohibited and willful violation shall be punishable as a Class 1 misdemeanor.
